Workshop Schedule

Saturday, July 11

"El Abrazo" 4:00 - 5:00 Intermediate Level

Figures for close embrace in social tango. The emphasis of this class will be on technique rather than just the memorization of patterns and steps. Men will learn the close embrace leading technique for the patterns, and women will learn the essential elements necessary to follow the men's lead, along with various possibilities of adornment for the steps involved in the patterns.

"Dancing the Milonga" 5:00 - 6:00 Intermediate Level

Originally the milonga was an imitation of the candombe danced on the riverbanks of the Rio de la Plata. It is fundamental to maintain its essence - the harmonious movement of the body and the particular cadence specific to this dance (without losing the beat of each step).

Sunday, July 12

"Fundamentals" 10:30 - 11:30am Beginner Level

Walking, balance, embrace, posture, how to lead with clear signals, how to follow with fluid movements.

"Men's Technique" 11:30 - 12:30 All Levels

Students will work on the walk and fluidity of movement, as well as learn to carry out different figures in space and within the measure of the music (enrosques, lapiz, agujas, planeos, giros, sacadas adelante :& atras, etc.) without losing the elegance that defines salon tango style.

"Ladies Technique" 12:30 - 1:30 All Levels

Adornment Technique for women: The joy of executing that lightning boleo, that precise amague can be attained only if you have the right technique. We will work on how to do many beautiful adornments.
